

EICF 2022 International Conference & Exhibition Ready to Go in Santander

Following two years of no physical gathering of the Investment Casting stakeholders from Europe and beyond, the EICF has actively been working in building up a solid and attractive programme aimed to deliver value for attendees.

The theme selected for the conference “Materials & Supplies. Challenges for the Investment Casting Industry”, could not be more appropriate at the light of the evolution of the economy and global interaction in the post Covid era. Call for Papers is still open for collecting contributions from the Industry, Universities and Research Centers. Should you be willing to contribute please check out the CFP details at the EICF website or in the INCAST October 2021 issue.

The venue for the International Conference shall be the Palace for Exhibitions and Congresses. A modern state of the art congress center where an Exhibition of suppliers to the industry shall be displayed, showing the latest innovations in product and services while allowing to physical reconnection among suppliers and

customers and advancing new business opportunities. This reconnection is considered fundamental after two years with limited communication.

EICF members will also have the possibility to join in presence, after two virtual ones, to the foreseen Annual General Assembly. With that occasion the venue selected could not be more attractive as it will be held at a royal site (Magdalena Palace) the jewel in the city's crown. This iconic building, located in the highest part of the peninsula of the same name, and once the holiday's place of Spain royal family, is one of the essential sights of Santander, allowing you to observe an impressive panoramic view. Following the EICF General Assembly a Welcome Reception party to delegates attending the Conference shall be held there within the historic frame of the Palace.

The Conference shall start on Sunday 15 of May 2022 evening with the Welcome Reception party and shall continue with two days (Monday 16 and Tuesday 17) of technical conferences and exhibition at the Palace for Exhibitions and Congresses to finish up

with an industry visit on Wednesday 18 to the prestigious investment casting company of Ecrimesa located in Santander.

The social highlight shall be the Conference Dinner to be held on Monday 16 at the beautiful site of the Gran Casino of Santander. A time to relax and enjoy in the gathering of your peers and colleagues allowing reconnection and updating.

Santander located in the north of Spain, is a combination of green mountain landscapes with white sand beaches, elegant mansions and palatial architecture with avant-garde buildings and the unmistakable echo of its seafaring past. Many cities within a city, perfect for discovering. A city that seems straight out of a storybook and whose life revolves around the bay, recognised as one of the prettiest in the world.

We are looking forward to meeting you at Santander, shaking hands and sharing experiences on areas of common interest. Please check at the EICF web site to find all details about the event.
